

## Sprint Retrospective

- During your retrospective, spend at least 10 minutes talking over:
  - o What went well
    - We got 'a lot' done, we were able to get approvals done quickly and by different people, communication was better for sure
  - o What didn't go well
    - laurel is bad at github, webex is horrible, we didn't get to all the cards
  - o What specific things you can do to improve
    - More **steady** communication, get stuff done
  - o List the measurement criteria
    - cards completed by each / total cards completed
  - o Assign a percentage to each team member based on your metric specified in this sprint's planning
    - Avery:  $16/40 = 40\%$
    - Laurel:  $3/40 = 7.5\%$
    - Cole:  $5/40 = 12.5\%$
    - Jaden:  $5/40 = 12.5\%$
    - Kai:  $11/40 = 27.5\%$
  - o Each person should have a percent between 0-100%
  - o Total percent for the team should be 100%
  - o Include the scrum master, and all of the members of the group (marking those who are present).
    - Scrum master – Avery
    - EVERYONE'S HERE
